

Solarsolutions co za Slovakia

Who is solar solutions?

Solar Solutions was established in 1999 by using renewable energy solutions technology. We are harnessing, reducing, cooling and lighting residential and commercial premises by going green that will not only go easy on the planet, but will go easy on your wallet, too. Let's harness the infinite, renewable energy source.

Why should you choose solar solutions?

It is a perfect way to lower your carbon footprint, reduce your electricity bill and protect our environment plus sustain its natural resources for current and future generations to come. Solar Solutions have a wide range of products available to help you towards making more environmentally friendly and ecologically responsible decisions.

How did solar solutions Impress Me?

Solar Solutions impressed me when I phoned to get a quote for a roof window in Mossel bay. The quote was sent the same morning. When I accepted the quotation the installation was completed within a week of order.

We supply solar solutions to the Commercial, Industrial, Residential, Automotive and Marine markets. We offer completely tailored solutions that suit our customer's needs and their level of investment. Our recommendations are based on a thorough understanding of renewable energy and our products. (Free energy is the future).

Solar Solutions has contributed to create spaces with high quality and to increase the health and well-being of the occupants. A good indoor climate, with generous daylight levels and provision of fresh air from outside, is the key to making homes, offices, warehouses and schools etc healthy.

Heliocol's patented panel clamps replace old-style rubber hoses and metal clamps that require regular rooftop maintenance and replacement. These durable, specially-engineered clamps never require replacement, never need to be tightened and, unlike rubber hoses, will not degrade and stain your roof over time.

Welcome to the world of solar power. After two centuries of industrial growth and technological advancement, the world is finally ready to use renewable energy sources on a large scale.

Ek is so beindruk met die diens van Glen en Amelia van Solar Solutions. Maak nie saak wanneer Jy hulle bel nie hulle sal "n plan maak. Ons het ons swembad verhit met die sonpanele en hulle Diens was perfek. Die werkers het my gehelp om tuin toerusting te skuif met "n glimlag al was dit Nie deel van hulle werk nie. Tien uit Tien vir goeie diens.

"The Slovak Republic has achieved impressive improvements in energy market regulation, energy security and environment - a unique performance in Central and Eastern Europe" said Claude Mandil, Executive Director of the International Energy Agency (IEA), today in Bratislava at the launch of the 2005 Energy Policy Review of the Slovak Republic.

At Switch Energy Solutions, we specialise in providing tailored alternative energy solutions for small to medium businesses, commercial enterprises, and residential clients. Based in Mossel Bay and servicing the entire Garden Route, our team is dedicated to helping you achieve significant electricity savings with a focus on sustainability. With years of experience and a ...

The most cost effective form of ventilation would be a hole in the roof, as this would allow the air to escape naturally. However this is generally impractical as a hole will allow dust, rain etc. to enter the building.

We are Electrical Contractors, specialising in the design, supply and installation of Solar and Green energy

systems. All our work are done according to the national standards for the Pv Greencard and Electrical Regulations SANS 10142

Silent solar solutions has 10 years experience in the solar system industry. We import and supply quality products to the South African market. We offer a holistic approach to alternative power supply options. From a basic back up system to a full off the grid system .

By connecting a Solar Solutions heat pump to your existing hot water cylinder you can divide your hot water electrical consumption by 4. Unlike solar a heat pump is not directly dependant on the sun and therefore it can operate day and night, winter and summer ensuring you the highest possible saving and piping hot water 24/7.
