The guest will receive an email from SolisCloud saying their account is registered. They will be given a temporary password of 123456. The guest will be able to log in to both the SolisCloud app and the browser page using their email and the temporary password. It is recommended that they change their password after logging in for the first time.

SolisCloud API user identity authentication adopts OAuth2.0. It is suitable for third-party service platform access scenarios. When a third-party application needs to access the user's data in SolisCloud, the user needs to authorize the third-party access permission. After verifying the user's identity, Solis will give the third-party data ...

Busca "Soliscloud" en la tienda de aplicaciones y luego descarga la aplicación. Si ya has creado una cuenta a través del navegador, utiliza tus credenciales de acceso. Si aún no has creado una cuenta, toca "Registro" en la esquina superior derecha. A partir de ahí, toca

1. Make sure that the date selected is correct. 2. We only calculate the power generation data between 10:00am and 14:00pm, so if the inverter power-up time is earlier than 10:00am or later than 14:00pm, then the data of that day will not be involved in the calculation.

Soliscloud gebruikershandleiding voor systeemeigenaars en/of organisaties (installateurs) Gewijzigd op Di, 16 Mei, 2023 om 1:09 PM Download hieronder de gebruikershandleiding voor systeemeigenaars in het Engels.
