

Sports stadium solar container project bidding

<div class="df_qntext">Could a 'sustainable' football stadium be built using repurposed shipping containers?

Plans for a £1.5m 'sustainable' football stadium built using repurposed shipping containers have been revealed. Newark & Sherwood United FC (NSUFC) has showcased a 3D model of the proposed 500-seat facility which, if approved, could be built on playing fields on Lincoln Road in Newark, Nottinghamshire.

<div class="df_qntext">Will a 'solar membrane' cover London's former Olympic Stadium?

A 'solar membrane' will soon cover the roof of London's former Olympic stadium. Planning permission has been granted to install 6,500 square metres of solar panels on the London Stadium in east London, which is now home to West Ham United Football Club.

<div class="df_qntext">How much will LLDC's 'membrane' project save a stadium?

The LLDC has estimated that the project will drive savings for the stadium of up to £350,000 annually. The lightweight 'membrane' design was required to minimise the panels' heaviness on the roof, maximise energy generation and ensure compliance with fire regulations.

<div class="df_qntext">How will NSUFC plan a new football stadium?

NSUFC said it would hold several public consultations to discuss the proposal before submitting a planning application. The designs for the proposed stadium include space for a community kitchen, a boxing gym and floodlit 3G pitches for training and youth games.

<div class="df_qntext">What would a new NSUFC stadium look like?

The designs for the proposed stadium include space for a community kitchen, a boxing gym and floodlit 3G pitches for training and youth games. NSUFC, which is currently sharing a ground with Harrowby United FC in Grantham, would share the facility with local junior football clubs.

<div class="df_qntext">Will London Stadium be the world's 'greenest sports and concert venues'?

Mete Coban, London's deputy mayor for environment and energy, said the £4.35m project would make the stadium one of the world's 'greenest sports and concert venues'. Mayor Sadiq Khan's office has revealed it contributed £45,000 towards a feasibility study and business case for the project, as first reported in the Standard.
