At the same time, the Federation of St. Kitts and Nevis is transitioning to renewable energy sources such as solar energy, geothermal and wind energy. The funding for the generators is included in a US\$40 million agreement with the Saudi Fund for Development that covers the expansion of the St. Kitts Electricity Company (SKELEC) Needsmust Power Plant.

The islands of St. Kitts (168 km²) and Nevis (93 km²) are located in the Lesser Antilles chain of islands in the eastern Caribbean. They are separated by a channel of just over three kilometres. The islands were inhabited first by the Sibonay who arrived approximately 2000 years ago from Central America.

Over the past several years, St. Kitts and Nevis has implemented several energy efficiency and renewable energy projects. In 2014, a light bulb exchange program was launched to replace existing residential lighting with 323,000 LED bulbs at a cost of roughly \$2.5 million; the manufacturing sector underwent a comprehensive energy audit; and SKELEC began a smart ...

Solar Power Generator 5000W South Africa. Solar panel rated power:5.6KW Suitable for daily power consumption: >33.6KWH. Allowable max loads power:5KW/7KVA . 16pcs 350W monocrystalline solar panel. A Grade SUNTECH cells of high efficiency 18% . Vmp:38.39V Voc:47.13V Imp:9.2A. Size : 1956*992*40mm .

Amsterdam-based sustainable energy company MPC Energy Solutions NV (FRA:5IX) said that it will invest as a minority partner in a solar-plus-storage plant project developed by Swiss battery maker Leclanche SA (SWX:LECN) in the Caribbean nation of Saint Kitts and Nevis.

Jackery Explorer 5000 Plus offers powerful, eco-friendly home backup with 5-60kWh capacity and dual voltage output (120V/240V). It supports various appliances during outages with 12 output ports, 7.2-14.4kW power, and a 0ms UPS switch for seamless operation of essential devices like fridges, computers, home servers, routers, and ventilators.

The storage system will be used to help meet the power demand when the solar PV is not generating. It also will improve the grid stability and serve as a backup to the remaining diesel generators. The \$70 million project in the hands of the state-owned St. Kitts Electric Company (SKELEC) has been under development for almost two years.
