

Sunflow solar structures Mozambique

Can Mozambique take full advantage of its solar potential?

In a new monthly column for pv magazine, SolarPower Europe describes how Mozambique may take full advantage of its huge solar potential by implementing its recently launched Renewable Energy Auctions Programme for large-scale projects, while also pushing for more off-grid renewables in remote areas.

What is the market for off-grid solar in Mozambique?

The total estimated addressable market for off-grid solar is currently 173 MW, and is expected to grow in line with the growth of the aforementioned sectors. Recent energy policy reforms are also changing the game for off-grid renewables in Mozambique.

Will Mozambique get a solar power plant in 2023?

Future tenders are expected to be announced in Q4 of 2023, including the selection of two independent power producers for two 30 MW solar photovoltaic power plants and one 50 MW wind power plant. But Mozambique has an enormous challenge that spreads far beyond where the national grid ends.

Does Mozambique have a solar vision?

However, the Mozambican government has a vision for the country, based on clean electrification for all. The southern African nation possesses serious solar wealth, with 23 TW of its 23,026 GW estimated renewable potential attributed to solar.

Will Mozambique achieve universal energy access by 2030?

By 2030, the Government of Mozambique hopes to transform this landscape, and achieve universal energy access by the end of the decade. This would require capacity to more than double to almost 6,500 MW. Solar is undeniably the most intuitive renewable technology when it comes to off-grid energy solutions.

Who won a solar power plant in Mozambique?

The first tender under the programme was the Dondo solar power plant which was won by Independent Power Producer (IPP), Total Eren (now acquired by Total Energies), with a tariff of \$52.45/MWh, and is supported by Electricidade de Mozambique (EDM) and the French Development Agency (AFD).
