

Sunwoda energy Hungary

Will sunwoda build a battery factory in Hungary?

In Europe, the Chinese battery cell manufacturer Sunwoda plans to build a factory for electric vehicle batteries in Hungary. According to the company's stock exchange announcement, Sunwoda plans to invest the equivalent of around 250 million euros in the plant.

Where is sunwoda battery made?

Sunwoda, a Chinese powerhouse in battery production, is taking a significant step into the European market by establishing its inaugural European manufacturing facility in Nyíregyháza, a city in the eastern region of Hungary.

Where is sunwoda based?

The Hungary project is Sunwoda's first self-owned production base in Europe and the third overseas factory following the global layout opened in New Delhi, India in 2017. This marks a new milestone in Sunwoda's global strategy.

Where is sunwoda building its first European battery plant?

One of the world's largest battery manufacturers, China's Sunwoda, is to build its first European plant in Nyíregyháza (a city in northeastern Hungary) with an investment worth around 580 billion forints (EUR 1.51 B), creating thousands of new jobs - reports J&R.
