Svalbard and Jan Mayen commercial battery types

contracts and eprocurement tenders.

There is an intimate link between the ecosystems in the sea and on land. In particular, there is extensive transport of energy from sea to land through nesting sea birds bringing food from the water back ashore. In addition, some marine mammals dwell on land for shorter or longer periods for birthing and moulting. Pregnant female polar bears hibernate in the snow in late autumn.

We had an amazing time in Svalbard, thanks to Yngve and Gro. They are great hosts, attentive since the first message and through our whole stay. The warm and cozy apartment is close to the main street in Longyearban, very convenient and easy to walk to all the stores and beautiful points of interest around.
