Honeywell International Inc has been selected to supply a 124-MWh Battery Energy Storage System (BESS) to six solar farms, developed by CB Loranger Companies" solar installer VIElectron, located in the three US Virgin ...

Description: A solar panel is actually a collection of solar (or photovoltaic) cells, which can be used to generate electricity when exposed to sunlight - a process known as the "photovoltaic effect". Please note that the solar panel needs to be used with a power station, and to use the solar panel, this should be put under sunlight.
