Will IRICO pay its opponents' legal fees?

REUTERS/Mark Blinch Purchase Licensing Rights Nov 21 (Reuters) - Facing a potential multibillion-dollar default judgment in an antitrust case, Chinese state-owned manufacturing company Irico Group told a U.S. judge this year that being ordered to pay part of its opponents' legal fees could be an alternative sanction.

Did IRICO destroy evidence in a price-fixing lawsuit?

REUTERS/Guadalupe Pardo Purchase Licensing Rights June 14 (Reuters) - Chinese state-owned manufacturing company Irico Group is fighting a potential multibillion-dollar judgment after a court-appointed fact-finder said the company destroyed evidence and flouted a judge's orders in a U.S. price-fixing lawsuit.

Was IRICO involved in a conspiracy to overcharge purchasers?

The plaintiffs in the long-running case accused Irico of participating in a years-long conspiracy to overcharge purchasers of cathode ray tubes once widely used in computer monitors and television screens. The company has denied the claims.

What happened to IRICO?

Irico was the last defendant in the sprawling antitrust litigation, which began in 2007. The company and other manufacturers were accused of conducting meetings to coordinate on setting prices. The North American market was the largest for cathode ray tubes during the class period, according to the plaintiffs.

How did IRICO respond to the antitrust case?

Irico denied the antitrust claims and disputed the plaintiffs' misconduct allegations, arguing it employed standard document retention procedures. It had urged the court not to impose sanctions, but said any sanction could be limited to legal fees or advising jurors about missing evidence. The judge disagreed.

Did IRICO violate the law?

The plaintiffs, direct and indirect purchasers of the devices, said in a court filing last year that Irico "acted with breathtaking disregard for the law and this court's authority" from the start of the case, delaying its progress and destroying documents such as pricing, production and sales information.
