

Volue energy Vatican City

What did Pope Francis say about solar power?

Pope Francis outlined his green vision for the Vatican in his 'Brother Sun' letter in June. In it he said solar panels would be installed on a Vatican-owned property outside Rome and the power generated from that could supply all of Vatican City's energy needs. [View on euronews](#) Beginning of dialog window. Escape will cancel and close the window.

Could a new solar panel roof make Rome a green city?

A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance.

Will a Vatican solar project be built outside Rome?

In an apostolic letter, the pontiff said the project will be constructed on Vatican-owned property outside of Rome that spans 424 hectares, adding capacity to existing solar panel installations in the city state.

What is Pope Francis' Green vision for the Vatican?

Pope Francis outlined his green vision for the Vatican in his 'Brother Sun' letter in June. In it he said solar panels would be installed on a Vatican-owned property outside Rome and the power generated from that could supply all of Vatican City's energy needs. [View on euronews](#)

What does Pope Francis say about climate neutrality?

"We need to make a transition towards a sustainable development model that reduces greenhouse gas emissions into the atmosphere, setting the objective of climate neutrality," Pope Francis wrote in the letter, titled *Fratello Sole, or Brother Sun*.
