

Volvo Bess El Salvador

Why is Volvo launching a Bess solution?

The company said the launch of a BESS solution is a strategic move to supplement its power generation business and tap into a new segment. A spokesperson for Volvo Group told Energy-Storage.news that the product is a sub-system rather than a full containerised solution.

What is a Bess subsystem?

Volvo Penta's energy-dense BESS subsystems are purpose-built to enable OEMs to build transportable, high-performance BESS solutions supporting the energy transition in industries where energy density is essential. Click on a number or headline to learn more. The Volvo Group is at the forefront of battery development.
