

Wallis and Futuna g2 energy systems

What happened to G2 energy?

Image: Harmony Energy. The closure of UK battery storage specialist EPC and independent connection provider (ICP) firm G2 Energy has been confirmed by Companies House, with a senior manager describing "unsympathetic clients" in comments given to Energy-Storage.news and that the bulk of the team is joining outsourcing giant Mitie.

Is G2 energy a NERS accredited company?

As an independent connection provider (ICP), G2 Energy delivers contestable works at voltages up to and including 132kV, and National Grid self-bay works up to 400kV. We operate a fully audited and verified integrated management system, certified by ISOQAR, and is National Electricity Registration Scheme (NERS) Accredited.

Who is G2 energy?

We provide complete design and build innovative solutions for sustainable infrastructure projects, with specialist expertise in connecting new energy infrastructure to the grid. As an independent connection provider (ICP), G2 Energy delivers contestable works at voltages up to and including 132kV, and National Grid self-bay works up to 400kV.

Why did Mitie join G2 energy?

By welcoming G2 Energy into our business, Mitie has expanded our high-voltage electrical and civil engineering services. Alongside our acquisitions of Custom Solar, Rock Power Connections and JCA Engineering, this means we can offer a more comprehensive set of engineering services.
