Western Sahara's rare visitors - if they're not here to be swept off their feet by the perfect coastal kitesurfing climate, come to be seduced by the emptiness of its desert. But there's an amazing abundance of rare wildlife if you know where to look, plus the hospitality of the remaining nomadic Sahrawi people who live here, too.

Deserts like Sahara have high solar potential to produce electricity. In the desert, sun strength is high, there is no shadow, no limited space, and stable weather conditions. It also helps local communities to get access to electricity.
