What did Younicos do?

Younicos was a German-American technology company that developed and sold energy storage systems and control software. The company integrated battery technologies, power electronics and control software to create systems that respond to the energy management requirements of power networks of all sizes, including micro-grids.

What happened to Younicos?

In July 2017, Younicos was acquired by Aggreko and is now a wholly owned subsidiary of the Scottish company. In October 2018, Aggreko completed the integration of Younicos into its newly formed Microgrid and Storage Solutions business unit. The name "Younicos" is no longer in use. Y.Cube

What is a Younicos battery based energy storage system?

Centrica (UK) Younicos has been selected by Centrica to design and deliver one of the world's largest battery-based energy storage systems. To be completed by winter 2018, the 49 megawatt (MW) lithium-ion system will respond to fluctuations in electrical demand in less than a second, to maintain electric power frequency and stability.

How many employees does Younicos have?

Younicos had two primary facilities: Younicos AG in Berlin, Germany, and Younicos Inc. in Austin, Texas. It employed a total of about 130 people as of 2017. The company was founded in Berlin, Germany, in 2005 under the name Solon Laboratories by executives of German solar manufacturer Solon.

The acquisition of Younicos was led by Aggreko Plc, a global supplier of temporary power generation equipment listed on the London Stock Exchange and a member of the FTSE 250 ALEXA CAPITAL'S ROLE. Alexa Capital advised on detailed preparation & positioning, engagement with investors & buyers across three continents, deal structuring, negotiation and ...
